

Yvette Boyd

3865898816 | myyvette17@gmail.com | Deltona, FL

Summary

Ambitious Computer Science student and woman in tech (Hispanic & Black) passionate about building innovative solutions through code and design. A relentless problem-solver who thrives in collaborative environments, combining technical skills (Vue.js, Java, UX/UI) with a creative mindset to develop user-centric applications. Committed to increasing diversity in tech and leveraging technology to drive meaningful change.

Projects

Skills

Basics Java, Basics of Python, Basics of Vue3, Basics of Pinia, HTML, CSS, Basics of Javascript, Basics of TailwindCSS, Figma, Team Building

Education

Florida Southern College | Lakeland, FL

Computer Science | 05/2027

Core Coursework & Skills Developed:

- **Web & Frontend Development:** HTML, CSS, JavaScript, Vue.js, TailwindCSS, Pinia
- **Cybersecurity & Ethical Hacking:** Penetration testing fundamentals, security best practices
- **Operating Systems:** Process management, memory allocation, file systems
- **Algorithms & Data Structures:** Problem-solving in Python, Big-O analysis
- **Discrete Math:** Logic, proofs, and structures foundational to CS
- **Database Systems:** relational database design
- **Software Engineering:** Agile development, version control (Git)

Applied Learning: Gained hands-on experience in full-stack development, cybersecurity labs, and algorithm design through project-based coursework.

Certificates

Foundations of User Experience (UX) Design, Adobe Certified Professional
