SUMMARY

Hispanic and Black Computer Science student at Florida Southern College with hands-on experience in web development, operating systems, and cybersecurity fundamentals. Quick learner with a strong troubleshooting mindset, proven customer-service skills, and a track record of delivering results in team environments. Seeking an IT Support internship or entry-level role to apply technical skills and grow in a professional IT setting.

PROJECTS

MarvelVsDC Desktop App *Java / JavaFX* github.com/0ddev3/MarvelVsDcFX

- Built a fully functional desktop application with a custom UI, managing local dev environment setup, dependency configuration, and version control via Git.

MarvelvsDC Simulation *Java* github.com/0ddev3/MarvelvsDC-Simulation

- Developed a Java-based simulation, managing object-oriented design, environment setup, and iterative debugging.

Portfolio Website *HTML, CSS, JavaScript* 0ddev3.github.io

- Designed, deployed, and actively maintain a personal portfolio site — independently managing hosting, updates, and performance.

WORK EXPERIENCE

Deli Associate / Cashier — Winn-Dixie, Deltona, FL *February 2023 – Present*

- Prepare and serve deli items while maintaining food safety and cleanliness standards in a fast-paced environment.
- Assist customers with orders and questions, consistently providing friendly and patient service.
- Work alongside team members to keep the department running smoothly during high-traffic periods.

TECHNICAL SKILLS

Operating Systems:

- Windows — used PowerShell and Command Prompt for basic system tasks and CLI troubleshooting
- Linux (Linux Mint) — used the terminal for file navigation, running scripts, and environment setup

Networking & Security:

- TCP/IP fundamentals, penetration testing basics, security best practices (coursework)

Programming:

- Java, Python, JavaScript, HTML, CSS, Vue.js, TailwindCSS, SQL, Git/GitHub

Tools:

- Figma, VS Code, GitHub, Command-line interface (Bash)

Soft Skills:

- Communication — clearly conveys technical and non-technical information to customers and teammates
- Collaboration — works effectively in team environments, including shared codebases and fast-paced service settings
- Patience — maintains composure and professionalism when supporting users and customers under pressure

- Attention to Detail — ensures accuracy in transactions, debugging, and system configurations
- Adaptability — adjusts quickly to unexpected situations and shifting priorities in both technical and service environments
- Problem-Solving — applies a methodical troubleshooting approach to resolve software, environment, and customer issues

EDUCATION

Bachelor of Science, Computer Science — Florida Southern College, Lakeland, FL *Expected May 2027*

GPA: 3.5

Relevant Coursework: Operating Systems · Cybersecurity & Ethical Hacking · Algorithms & Data Structures · Database Systems · Web Development · Software Engineering (Agile, Git)

CERTIFICATIONS

- Foundations of User Experience (UX) Design — Google
- Adobe Certified Professional (2022)
